

Ionospheric Effects Working Group

- Matthew Angling (University of Birmingham and QinetiQ) has taken over as chair for the IonoEffects Group.
 - Thanks go to J-P Luntama for his efforts previously
- Plan
 - Re-establish email list
 - Seek a vice-chair
 - Propose that the vice-chair is appointed with the expectation that they become chair in future.
 - This is how the URSI commissions work and it provides continuity in leadership
 - Organise splinter meeting at the European Space Weather Week
 - Engage with ESA to discuss how the group might contribute to future SSA plans
