

Ionospheric Effects Working Group

- Chair
 - Matthew Angling (University of Birmingham and QinetiQ)
- Vice-chair
 - Still open
 - Propose that vice-chair should succeed chair to maintain continuity
 - Same policy as URSI working groups
- Role
 - Opened for discussion at ESWW9, but no clear direction
 - Preference is to have more interaction with ESA programme
 - Requires greater interaction with ESA and greater engagement from group members

Actions from meeting at ESWW9

- 1.1: Liaise with ESA concerning review of the ionospheric roadmaps developed under SN-1
- 1.2: Seek volunteers from the TWG to support the review
 - Roadmaps provided by ESA in Dec 2012 and reviewed by MJA. No other volunteers forthcoming.
- 1.3: Liaise with RPC on specific opportunities for the TWG to support the work of the ESA Network of Experts
 - Open. Meeting with RPC at Beacon meeting in July
- 1.4: Discuss options for more general coordination with other groups (i.e. URSI, COSPAR,...)
 - Open
- 1.5: Discuss possibility of having an extreme space weather session at ESWW10
 - Session proposed and accepted.
